About us

We are an Agri-business firm mainly focussing on cashew processing and trade, the promoters have more than 30 years of experience in cashew industry, with own cashew processing plants in India and Vietnam.

Due to its DFF (Direct-from-farmer) policy the company has built a sense of trust among its clients spread around the globe. It is this special bond that has driven the company forward and enabled it to grow in the sphere of cashew industry.

Treeco commodities have offices in India, Vietnam, UK. We are one of the first processing group to go direct to the Market. In the UK we also maintain stock for supply in Pallets throughout Europe.

The Group has a production capacity of 15000 MT of RCN per year. At present the company procures its Raw cashew from Ivory Coast, Ghana, Benin, Nigeria, Guinea Bissau, Tanzania, Mozambique, Indonesia, India etc.

The Company mainly adopts drum roasting technique for processing as it gives superior technique for processing it gives superior taste, good colour, and long shelf life. The company is driven by a dedicated team of employees with impeccable work ethics and a thorough knowledge of market dynamics, thereby paving the way for growth by opening new avenues in the global cashew market.

Our Mission

To establish ourselves as the leading supplier of cashew kernels across all countries. We shall endeavour to excel in manufacturing and exporting of cashews by continuously adapting to modern technologies like colour sorter machines, metal detector machines, infra-red machines etc to produce the cleanest cashews for all needs.

Quality

With Quality and innovations as our driving force, we have always aimed for total customer satisfaction. We are one of the pioneer cashew processors to be accredited with the Prestigious ISO22000:2005 FSMS quality certification. We accord the highest priority in maintaining the best quality and hygiene standards. Utmost care is taken to ensure that uniform quality is maintained right from procurement to processing to delivery. All fool proof steps are taken to ensure that the best hygiene practices are implemented throughout all operation.
